

Item: Fiber Conduit kit for Integra

Compatibility: Integra

P/N: D0ACK001

Description

The Fiber Conduit kit for Integra is designed to protect installed optical cables. The Fiber Conduit is made from robust, abrasion proof and oil resistant polyurethane with inner structure consisting of plastic coated spring steel wire. It is UV resistant and highly flexible even in low temperatures.

The Fiber Conduit is supplied with an UV resistant plastic cable tie. Stainless steel banding or cable ties can also be used.

Specifications

Body materials	
Conduit:	Polyurethane with plastic coated spring steel wire
Cable gland:	Polyamide
Conduit holder:	Steel
Conduit length	59 cm
Inner diameter	16 mm
Allowed cable diameter	9 – 15 mm
Waterproof rating	IP68
Temperature range	
Fixed:	Fixed: -40° C to +90° C
Dynamic:	Dynamic: -20° C to +90° C
Weight	0.2 kg
Supplied cable tie	
Length	46 cm
Temperature range	-60° C to +85° C UV resistant
